Our Future – Our Choice!

Meet our **keynote speaker**, Jonathan Brill, called “the world’s leading transformation architect” by *Harvard Business Review*, and “a Silicon Valley legend” by *Inc. Magazine*. He is the author of *Rogue Waves: future-proof your business to survive and profit from radical change*. Our audience will also hear reports from Envision’s signals teams. They have been scanning for signals and identifying trends for several years now, all aimed at shaping a “community of choice.”
