STRATEGIC FORESIGHT TRAINING

Why are some organizations **vibrant** and **successful**, while others stagnate and fail?

The pace of change is only increasing. Is the pace of your strategic planning keeping up?

Maybe it's time to break out of your silo, recognize opportunities and reduce your risks. Maybe it's time to train a team in **Strategic Foresight**

Organizations engaged in strategic planning generally plan two years out. Their focus is internal and their impact incremental.

Strategic Foresight helps organizations determined to successfully change the conversation. They learn how to consume information differently, often increasing the bottom line and their organization's monetary value.

What is **Strategic Foresight**

- Guidance by a trained, certified futurist
- A cohort of local teams determined to anticipate and lead change
- Skill-building, tool-crafting, creative thinking
- 2 face-to-face sessions, 3 virtual sessions
- Ongoing individual support
- Option for follow-up consulting and on-site training by Envision board members certified by the University of Houston

We're helping Greater Green Bay shape its preferred future, and we'd love for you to join us.

Our Strategic Foresight workshops will give your team a foundation for effective strategic planning that's systematic and reliable. Learn to identify opportunities and reduce risks through Strategic Foresight tools and skills.
